"Tune into the Flow"

Hi, Guest!
Welcome to Orbit,

03 TURN ON ORBIT HEADBAND.

Turn on the sliding switch for the power and the indicator will flash blue. ▬▬▬

Make sure your headband is fully charged.

If it indicates zero, please charge it first.

INDICATOR LIGHT	BATTERY STATUS
▬▬▬ Orange (Solid)	Full - 100%
▬▬▢ Orange (Solid)	2 bar - <=66%
▬▢▢ Orange (Solid)	1 bar - <=33%
▬▬▬ Light alternating	Charging

04 CONNECT ORBIT HEADBAND WITH THE APP.

Make sure Bluetooth and GPS is enabled on your phone.

Auto Connection: After the headband is connected to the app once, you won't have to connect manually afterward. Turn on the headband first and hold it near your phone, and then open the app. The app will search the headband and connect automatically.

Ensure that the headband is powered on, and is waiting for a Bluetooth connection.

05 PUT ON ORBIT HEADBAND.

Put on the headband and place the sensors in the middle of your forehead.
Please make sure there is no HAIR or GAP between the sensors and your skin.

06 TAP, MEDITATE, AND GET SCORE.

Select a card of **focus** or **calm** or **energize** in the session screen and start to meditate.

After you end the session, review the results and reports, and see how your state of mind varied over the session.

You can follow the same steps to experience any of the guided meditation programs in the application as well.

INDICATOR LIGHT	DEVICE STATUS
▬▬▬ Continuously blinking one after the other	Device searching for bluetooth
▬▬▬ Orange light stays on with high intensity	Device is connected to bluetooth
▬▬▬ Orange light stays on with low intensity	Device while doing session
▬▬▬ Light flashing with high intensity	Troubleshoot/ Error in device

TIPS

Other bluetooth devices may interfere Orbit when it is connecting with the app. Please keep them far away.

When you are doing meditation with Orbit headband, please keep your phone within 2 meters to ensure stable signal transmission.

When you wear the headband, please don't move your head heavily in case the sensors can't acquire stable signals.

To avoid any product damage or a safety hazard, please use the USB charger with maximum output of 5V to charge the headband.

If you need any support, please go to the "Orbit app - Settings - Help & Support", contact us to have responsive customer service. We'll reply ASAP.
